

MEETING/PROJECT NAME:		<b>Goffs Quarry Community Liaison Committee – Meeting # 12</b>	
DATE OF MEETING:	March 3, 2021	TIME:	6:30 pm – 8:30 pm
MEETING CHAIRPERSON:	Martin Zwicker – Acting Chair		
PREPARED BY:	Angela Freeborn Office Manager Scotian Materials Ltd.	LOCATION OF MEETING:	Virtual- Microsoft Teams
<b>1.0 MEETING OBJECTIVE</b>			
Reviewing Revisions to Terms of Reference, Memberships, and renewals, the 2020 Environmental Monitoring and Blast Monitoring results as well as following up on the Dispute Resolution policy and Communication plan.			
<b>2.0 ATTENDEES</b>			
Martin Zwicker – Acting Chair		Robert MacPherson – Scotian Materials	
Angela Dicker – Miller Lake W.		Heather Mackay – Clean Earth Tech.	
Keri Irwin – Miller Lake W.		Anna McCarron – SWEPS	
Cameron Wainwright – Fall River BA.		Sean MacLean – Maritimes & N. Pipeline	
Bill Horne – Local area MLA		Angela Freeborn – Scotian Materials	
<b>3.0 ABSENT FROM MEETING</b>			
Mimi LeCain		Dean Bouchard	
Jason Crowell			
Bud Baker		Cathy Deagle-Gammon	
<b>4.0 AGENDA AND NOTES, DISCUSSIONS, ISSUES</b>			
<b>TOPIC</b>		<b>DISCUSSION</b>	
1.0	CALL TO ORDER	Martin Zwicker, Acting Chair, led the meeting and reviewed the use of Microsoft Teams, and shared the agenda with other members for approval.	
2.0	PROCEEDINGS	Martin then asked for of the approval of the agenda. He then moves into approval for the minutes from meeting # 11.	
3.0	REVIEW REVISIONS TO TERMS OF REFERENCE	<p>Robert advised that the Terms of Reference remain consistent with the previous year with only one new addition under the Purpose section, with the addition of the following clause <i>“to review and comment upon dispute resolution policies and/or complaint response procedures.”</i></p> <p>Martin indicates the addition is consistent with the provincial guideline for CLC responsibility.</p> <p>Martin then calls for motion for approval for this new addition which had then been moved by Robert and seconded by Bill. Motion passed.</p>	
4.0	REVIEW OF MEMBERSHIP AND RENEWALS	Robert presented the membership list with the only change being the local area councillor seat which changed from Steve Stretch to Cathy Deagle-Gammon.	

		<p>A question regarding inviting HRWC representative Barry Geddes. Robert will extend the invite to Mr. Geddes for the next CLC Meeting and advised it was an oversight that he was not invited to this meeting.</p> <p>Bill advised he wishes to continue on the committee when he is no longer MLA.</p>
5.0	2020 ENVIRONMENTAL MONITORING RESULTS	<p>Robert provided the overview of the Environmental Monitoring Report. He indicated the results are consistent with previous reports and presented highlights of each area:</p> <p><u>Groundwater Levels:</u> Monitoring wells 16-2, 16-3 and 16-4 are all within the zone of influence and show decreased water levels which is expected. The wells outside the zone of influence and drawdown remained consistent with previous monitoring events with no significant water level drops.</p> <p><u>Groundwater Chemistry:</u> Concentrations were within baseline groundwater concentrations. Dissolved arsenic, manganese and lead exceeded CDWQG MAC's during one monitoring event. Exceedances may be related to turbidity in the sample and are not quarry related.</p> <p><u>Stream Flows:</u> All within seasonal variations. Summer months are dryer than the spring and fall months as expected.</p> <p><u>Surface Water Chemistry:</u> Water quality concentrations in 2020 are consistent with baseline water quality data. No change detected in parameters.</p> <p><u>Discharge Water Quality Monitoring:</u> With the implemented discharge management in place, the concentrations of metals from previous years have decreased. The elevated nitrate concentrations were likely related to blasting residues. Nothing showing any discharge reaching the water courses and wetland areas. In general, there has been a decrease in metal concentrations from previous years.</p> <p><u>Wetland Monitoring:</u> Seasonal trends with water levels remain higher in the spring and fall months with drier conditions during the summer months. The functionality of wetland was assessed to be in good health</p> <p>A question was asked regarding the PH levels Rob explained that all samples have been within the acceptable parameters.</p> <p>Another member requested the possibility of seeing the full report. Robert advised he would place the report on the CLC website for member viewing.</p>

6.0	2020 BLAST MONITORING RESULTS	<p>Robert presents the Blast Monitoring results from 2020.</p> <p>He reports the year 2020 had a total number of six (6) blast events all within the allowable limits for vibration. He advised that a monitoring location was relocated from 477 Preakness to 33 Preakness. All monitoring results have remained within the allowable limits.</p> <p>Robert advised the plan is to continue to monitor at the pipeline, 906 Perrin Dr., 340 Preakness and 33 Preakness unless, a monitor station is requested by a community member.</p> <p>A question was asked as to what “No Trigger” means. Robert explains that no trigger means it did not read or the machine malfunctioned.</p> <p>Another member asked what the anticipated blasting plan was for 2021. Rob replied an anticipated 4-6 blasts may be conducted for this year depending on the demand for aggregate.</p>		
7.0	DISPUTE RESOLUTION FOLLOW-UP DISCUSSION	<p>Robert presented the Draft Dispute Resolution Policy.</p> <p>A motion to endorse the draft Dispute Resolution Policy was made and approved.</p>		
8.0	COMMUNICATION PLAN FOLLOW-UP DISCUSSION	<p>Robert presented the Community Communication Plan.</p> <p>It was suggested that an addition be made to include a mail out to the local community to make them aware of the quarry, the information website and how to contact Scotian to be on the email distribution list.</p> <p>A motion to approve the communication plan with an understanding that the suggested amendments be made and presented at the next meeting. Motion approved.</p>		
9.0	Q & A - DISCUSSION	<p>A question regarding the role of the CLC meetings going forward had been raised. Robert stated how helpful and valuable the committee has been. He indicated the frequency is as determined by the committee. He asks if the committee remains in agreement with the semi-annual meetings. The members agree to keep it as is.</p> <p>Another member asked about the future of the project. Rob provided the committee with an update on the asphalt plant and informs them it has been operating all year with no complaints and none expected. He then advises that the concrete plant is on site but not currently operational at this time.</p>		
10.0	FUTURE MEETING DISCUSSION	<p>September 22, 2021 will be the date of the next CLC meeting. Members will aim to meet in person but will be decided closer to the said date depending on COVID restrictions.</p>		
MEETING ADJOURNED:		Meeting adjourned at 8:17 PM		
NEXT MEETING DATE:		Wed. September 22, 2021	TIME:	6:30 PM – 8:30 PM
