4.0 AGENDA AND NOTES, DESCUSIONS, ISSUES			
TOPIC		DISCUSSION	
1.0	CALL TO ORDER	Martin Zwicker, Acting Chair, led the meeting by Welcoming members and requesting introductions.	
2.0	INTRODUCTIONS	Committee members introduced themselves and who they represented.	
3.0	PROCEEDINGS	Moved to approve the agenda. Membership and electing new chair added as an additional item to the agenda.	
4.0	REVIEW PREVIOUS MEETING MINUTES	The minutes were approved with no noted errors or omissions and posted on the Scotian Materials website.	
5.0	COMMUNICATION PLAN FOLLOW UP DISCUSSION	The communication plan had been approved at the previous meeting with the addition a community outreach portion to be added to the plan. Rob noted that the section had been added to the end of the table for an annual information mailout to the community. Rob informed the members that a two-sided post card had been distributed roughly mid June of this year by Canada Post. It was noted, a digital copy of the mail outs will be provided to committee members for the purpose of sharing as it didn't seem to reach everyone in the mail catchment area.	
6.0	OPERATION UPDATE	The only blast so far this year was in June and was within permitted allowances. Scotian Materials continues with environmental monitoring requirements under the monitoring program and the results are normal.	

		<p>This year concludes the fifth year of monitoring and will result in a 5yr compiled report being submitted to NSE evaluating the anticipated impacts and mitigations versus the monitoring results.</p> <p>The report will be submitted to NSE February of 2022. The March CLC meeting will include a presentation by the environmental consultant on the report and findings.</p> <p>A discussion involving wildlife and the proximity of the Waverley Game Sanctuary to the quarry resulted in a request to have the Department of Natural Resources present at a future meeting. Rob indicated that an invite had been extended to them previously which was declined; however, another invite will be extended.</p> <p>Scotian informed the committee members of the upcoming Wellington Connector project. There may be an increase in production and activity at the Scotian Quarry when the contract is awarded.</p> <p>It was noted that the construction of the Wellington connector will involve blasting and it may cause confusion in the community whether the blasting is from the quarry or the Wellington Connector project.</p>
7.0	QUESTIONS AND DISCUSSION	<p>Rob reminds everyone that there is typically 12 to 14 members that sit on the committee and the efforts made to cross section stakeholder and representatives. Memberships are reviewed annually, and affirmation had been addressed last meeting with current members wishing to continue their memberships.</p> <p>Changes to the membership include the addition of Councillor Cathy Deagle – Gammon HRM Councillor for District 1 and Bill Horne as a community representative of Wellington. Rob will be extending a formal invitation to Brian Wong the MLA for Waverley-Fall River-Beaver Bank.</p> <p>Rob will reach out to the other members to reaffirm their interest in participating in the committee and the importance and value to the committee of attending all the meetings. If they are unable to attend the meetings it will be requested that an alternate representative from their organization participates.</p> <p>Martin Zwicker will be put forward as the new chair at the next CLC meeting per the alternating chair role.</p> <p>Scotian Materials as part of their ongoing consultation with First Nations will remind them of the committee and that their representation is welcomed on the committee.</p> <p>A request for an updated tour of the quarry had been requested. Rob indicated that tours would be one-on-one due to Covid safety protocols.</p>
8.0	FUTURE MEETING DISCUSSION	<p>March 23rd 6:30 pm, 2022 will be the date of the next CLC meeting. Members will aim to meet in person but will be decided closer to the said date depending on public health guidelines.</p>
MEETING ADJOURNED:		Meeting adjourned at 8:16 PM
NEXT MEETING DATE:		Wed. March 23, 2022
		TIME:
		6:30 pm – 8:30 pm
